

IPAF MCWP Installer training.

AIM

To instruct the trainee to safely operate and install various types of Mast Climbing Work Platforms (MCWP). To include all aspects of operating the MCWP, the assembly of the platform and controlling/safety devices, installation of mast and ties, and movement of the machine.

Further to have knowledge of any local regulations relating to the supply and use of MCWP's, risk assessments and method statements, and to be capable of final assembly visual and functional checks.

Course entry criteria:

As the assembly and use of MCWP's can be physically demanding, users should be physically fit and in good health and should, **generally**, not have problems with eyesight or hearing, heart disease, high blood pressure, epilepsy, fear of heights/vertigo, giddiness/difficulty with balance, impaired limb function, alcohol or drug dependence or psychiatric illness. If you have any problems with literacy or language comprehension or have any doubts about your fitness to use MCWP's, you **must** bring them to the attention of your employer. This need not preclude you from using MCWP's, provided your employer conducts an assessment and is able to put into place adequate measures, to take account of any difficulties you may have.

If any modules required for this application have been completed more than two years prior to application, then the theory tests for those modules (if any) should be retaken and re-assessed.

Training modules:

- All modules covered by the IPAF Mobile operator training.
- Understanding Risk assessments and Method statements.
- Platform electrical connections, control panel, limits etc.
- Regulations and guidance.
- Hand railing & guarding.
- Erection and dismantling procedures.
- Final assembly visual and functional checks.
- Platform assembly.
- Tie installation.
- Final appraisal - installation.

Course format:

This course comprises of both theoretical and practical training, with written and practical assessments.

Assessment:

Will be by both practical and theoretical test, with a pass requiring an achievement of at least 80% in each assessment. The assessment of each module will be reviewed with the candidate at the end of the training to allow feedback and comments. Those who successfully complete the course will receive an "IPAF PAL card" for "**MCWP Installer**".
